

GT-Lite Pro-Series LED Bulbs

Application

Our newest ultra-bright LED bulb can light up any space. Install easily with its E39 base or into a standard light socket with the included E26 adapter. If you are looking for more options, save while supplies last on GT-Lite's Lumen Tough bulbs. These bulbs are rated for use in enclosed fixtures and have a variety of features, such as selectable color temperatures and wattages, as well as a wet rating on the GT-CTB40-WET. All carry high-performance LED drivers for extended life and higher efficacy.

Product Features And Specifications

- Select bulbs with 3 selectable wattage outputs.
- Select bulbs with 3 selectable color temperatures (3500K, 4000K, 5000K).
- LED rated lifespan of 50,000 hours on Lumen Tough bulbs.
- Select bulbs rated for use in enclosed fixtures.
- Wet rated GT-CTB40-WET, all other bulbs are damp rated.
